

Date: August 15, 2024

Reading & Language Arts (Clark)

Reading- Next week students will begin their wonders units. In unit one students will learn about expository text, comparing and contrasting, context clues, and text features. **Our first test will be Friday, August 23rd!**

Writing/Grammar- Students will start having a daily journal response starting next week. They will be working on idiom journals.

Social Studies- Students will begin learning about the rights and responsibilities of US citizens.

Important Information:

1. Please encourage your student to **read every night for at least 30 minutes**. They could read small books from the library at night and be ready for the AR test in the morning.

Math/Science (Sensabaugh)

Math: We will work on reviewing third grade math standards next week. You should start practicing multiplication facts with your child.

Science: We will discuss these questions: What is an internal and external structure? What kind of structures does my animal have?

Important Information:

1. Make sure your child is bringing their yellow folder home daily and completing any work in the folder so they don't get behind.

For more information, please visit your child's teacher page at
