Hi {{Name}},

So, you're in the chiropractic game, and growing your business feels impossible?

If that's you and you want to scale it, then read below and you'll realize what you need to grow your business.

The main reason you're struggling is that you aren't persuading readers to take action. If you can't show people why you're worth their money, you've failed as a business owner.

Even with tons of leads, if they hesitate to buy from you, it doesn't matter.

Cash flow is crucial for a business to survive. Without it, you're stuck or worse, facing closure.

Look at successful competitors like Mayo Clinic. If they can do it, why can't you?

Now that you understand the issue and solution, may I send you a Google Doc with your rewritten landing page?

If so, reply with "Yes" and I'll send it, or "No" and I'll leave you alone.
