NAME: CYBERSECURITY AWARENESS SEMINAR

DESCRIPTION: An informative seminar was organized by RGIT CESS and CODE CELL for RGIT students, to expand their knowledge and insight into the field of Cyber Security and Ethical Hacking with the objective to build up their hacking skills. The speaker, Azhad Shaikh brought years of experience in providing comprehensive cybersecurity solutions and training, ensuring that the students gained invaluable skills to protect their digital assets. He brought a wealth of expertise to the seminar with his valuable knowledge in the world of cybersecurity and demonstrations of hacking techniques used by ethical hackers in this world.

This seminar not only contributed to the participant's educational growth, but also improved their practical exercises with hands-on experience. There were a good number of questions asked on the basis of the cyber security seminar.

OBJECTIVES: Cybersecurity in today's world is the practice of protecting digital systems, networks and data from a wide range of threats, including hackers and other cyberattacks, to ensure the privacy and availability of information and services.

Hence, this seminar was to raise awareness about social attacks and how to defend against them. In the world of cybercrime, hackers are in high demand which becomes a career opportunity for aspiring students, to gain knowledge about Cyber Security. The event provided valuable insights, interactive sessions, networking opportunities and hands-on experience for the attendees, making the event both enlightening and enjoyable.

The tools covered in the field of ethical hacking were also showcased, such as Software, Firewalls, Cryptography, Security, Operations and Monitoring, enabling the students of RGIT with the knowledge and tools necessary to navigate an innovative prospect of Cyber Security.
