

**3. bekkur - Námsgrein: LISTIR OG ENSKA - Kennari: Louise Hazell A Harris - tíma fjöldi: 32****Námsgögn/Resources:**

According to the year plan.

Materials shared with class teacher.

Appropriate stories and text.

2D and 3D art media and materials.

Lykilhæfni/Key Skills:

Comprehension – Listening to relevant content of increasing complexity to the subject, following instructions related to practical tasks.

Reading and Writing- students experience simple text.

Speaking – students can express themselves with increasing confidence and accuracy in English.

Creativity- students make creative artworks based on themes and ideas taught and discussed in lessons.

Grunnþættir/Basic Principles:

These are in accordance with the Icelandic National Curriculum.

Literacy, Sustainability, Democracy and Human Rights, Equal Rights, Health and Wellbeing, and Creativity.

Lokanámsmat í samræmi við hæfniviðmið aðalnámskrár.

Í Landakotsskóla er leitast við að námsmat sé leiðbeinandi og nái utan um fjölbreytta hæfni nemenda. Í meginráttum er endurgjöf og námsmat til nemenda með tvenns konar hætti:

- í formi óformlegs námsmats í gegnum samtal, hvatningu og leiðsögn í kennslustundum sem byggt er á skýrum markmiðum sem eru nemendum ljós.
- með formlegri hætti með ólíkum verkefnum sem nemandi vinnur ýmist í skólanum eða sem heimaverkefni. Nemendur sýna hæfni sína með ritgerðum, kynningum, munnlegum, verklegum eða skriflegum prófum, leikþáttum, stuttmyndum, framsöguverkefnum myndverkum eða dansverkum þar sem styrkleikar nemenda geta notið sín. Í þessum verkefnum fá nemendur formlegri endurgjöf sem getur verið í formi einkunnarorða, bókstafa, prósentutölu, stigagjafar eða umsagnar. Nemendur vinna einnig sjálfsmat og jafningjamat með sambærilegum hætti. Námsmatið er grundvallað á þeim hæfniviðmiðum sem unnir er með hverju sinni.

Hæfniviðmiðin eru sá grundvöllur sem náms- og kennsluaðferðir og námsmat byggjast á.

- *Hæfniviðmiðin skýra fyrir nemendum til hvers er ætlast af þeim og leiðbeina við námið, hvetja og auka skilning á tilgangi námsins.*
- *Hæfniviðmiðin hjálpa kennurum að gera sér skýra grein fyrir því hvað það er sem þeir vilja að nemendur nái tökum á varðandi þekkingu og leikni.*
- *Hæfniviðmiðin hjálpa kennurum að velja hentugar kennsluaðferðir og skilgreina hvernig meta skuli árangur og hvort tiltekinni hæfni sé náð.*

Objectives	Competences	Teaching and learning styles	Assessments
Develop language skills and creative confidence through listening, talking, debating and making.	Ability to follow simple instructions. Ability to express ideas and preferences. Ability to understand ideas and processes. Ability to debate and explain decisions with teachers and peers. Ability to present ideas and describe their decisions to others. Ability to express their creativity with increasing confidence. Knowledge of a range of 2D and 3D media.	Child centred with teacher led instruction as appropriate.	Ongoing formative assessment, summative assessment.

Lýsing - Áætlun

Students will have the opportunity to work with a range of sources from the world around them. There will be an opportunity to deepen their knowledge and understanding of their environment and the natural world. Where appropriate, we will meet with experts from museums and galleries to provide additional information and understanding.

This course will aim to develop English skills using art lessons as a stimulus. Students will be engaged in a range of art making activities and will learn to communicate their ideas and needs in English. Students will complete art projects and will receive instructions primarily in English, I will also offer demonstrations to those who have weaker language skills and give some support in Icelandic.

This course will engage, inspire and challenge students, equipping them with the knowledge and skills to experiment, invent and create their own works of art, craft, and design. All students will have the opportunity to produce creative work, explore their ideas, and record their experiences. Throughout the course students will become familiar with a range of drawing, painting, sculpture and other art, craft and design techniques. They will learn to evaluate and analyse creative works and learn about great artists, and designers.

We will complete a range of projects and students will have the opportunity to learn new skills and work with a diverse range of 2D and 3D media. They will work from direct observation and also make imaginative individual responses to different subjects.

Throughout the year we will concentrate on projects that involve language and give students the opportunity to work at their own pace and realise their individual potential.

Áskilinn er réttur til breytinga á áætlun og námsmati.
