

## Intro

Winstons Lab included the playoffs this stage, but apparently there will be an option to remove it from future stage playoffs. I know you have a strong opinion here, asmith, so I'll let you talk about it:

### How'd you do this past week?

Asmith - went undefeated last week and beat Death

## **What's going to change in stage 2?**

Who do we think may see LESS playing time?

Asmith

Jake for Spree in dva/zarya meta?

Diya, assuming a projectile players is added and ready

Asher, underwhelming overall stage 1

DeathBlow

Logix? For Zappis?

Bani out, boink in?

Neptuno for Joemeister on Lucio?

## **What players do we expect to benefit most from potential new heroes?**

Tobi, Dhak, Chips, Zuppehsai, fiveking? - NO MORE MERCY

**Asmith**

Kalios- Zarya

Fragi- the rise of Reinhardt!

TviQ- Any change cant hurt him

Shanghai's new players lol

**DeathBlow**

Zunba - Any opportunity for him to play more Zarya could be huge.

iRemix - Always thought of him more as a Reinhardt.

Cocco- No more Winston???

Libero - more than flexible enough to continue to stand out in a tank role.
