

Ninja Sex Party 6969 Gauntlet

Version 1.0

(See Notes for song and Gauntlet creator info)

Danny Sexbang and Ninja Brian use a time machine spaceship to travel to the sexiest year: 6969. On arrival, they find that human touch has been made illegal through Decree 5318008 of the Dick Elders. The Council of Dick Elders have had the world under a mind control spell for a 1000 years to rule uncontested and if the people have sex, the spell will break. To save the world, they have to show the public the magic of sex while being hunted by the Council of Dick Elders who rule the world.

The gauntlet begins after Danny Sexbang has failed to convince the Council of Dick Elders to allow boning. You will take Danny's place hiding in an alleyway with Ninja Brian while the Council's guards are out hunting for you. Your time machine spaceship is parked one mile away from your current location. Fortunately, for the duration of this gauntlet it is guaranteed to be indestructible, impossible to board or hijack by your enemies, have unlimited fuel, and stay

stocked with food and water. They still might form a perimeter around it though, so actually getting onto it might prove tricky. It also doesn't have any weapons, so an aerial bombardment on the Council of Dick Elders is not an option.

Your mission is to kill the Council of Dick Elders and cause at least one billion people in the year 6969 to have sex. Your time machine spaceship does have the technology to hijack the world's broadcasts and show a live feed of your choosing. Perhaps triggering an Orgy A-COCK-olypse may help. With the right skills and some luck all of this can be done in a single day. Regardless, you have a time limit of one year to accomplish your mission or the gauntlet will fail. To be clear, that year is in time you personally experience. Time travel will not reduce or increase the time limit.

Unfortunately it seems that all your choice points were lost while traveling to the future at the speed of Brian. I guess you will have to make do with your **+0 Choice Points**.

Did I mention that you only enter this with your body mod? This is a gauntlet after all and standard gauntlet rules apply. Good luck.

Location

An alleyway in the capital of Earth near the Council of Dick Elder's headquarters. It is the year 6969.

Origin

You will take the place of Danny Sexbang. You may freely change your gender and/or age as you wish. Keep in mind you are not becoming Danny, but replacing him. Ninja Brian will treat you as if you were his partner all along. You might need his help if you want to survive. You can arrive as a drop-in, or with the memories of Danny but subtly altered to account for your gender, age, appearance, and sexual orientation. Whatever you choose, you get the knowledge of how to operate the spaceship unless you take a drawback that prevents this.

Drawbacks

Drawbacks cannot be purchased multiple times unless it is stated otherwise.

Crossover Toggle (Free)

You can combine this Gauntlet with the setting of any original song by Ninja Sex Party. You just have to design a setting that somewhat makes sense and doesn't make the gauntlet easier.

Stoned (+200 CP)

For some reason you thought it would be a good idea to try some future drugs. You are now on a permanent high, as if you just smoked some strong marijuana, for the duration of the gauntlet.

Nudist (+200 CP)

I hope you don't mind nudity, because you will not be wearing anything for the duration of this gauntlet.

Impotent (+200 CP)

It might be hard to convince people of the wonders of sex when you are sexless yourself, but hopefully you can find a way. With this your anal cavity will be clenched too tight to penetrate whenever you try to have anal sex, you cannot get erect if you have a penis, and if you have a vagina it will always be dry as sandpaper. Lube will not help as it will instantly evaporate when applied. I suppose you still have hands and a mouth, so that's something.

Full Immersion (+200 CP)

For the duration of this gauntlet you will be fully immersed in your role. You have no memories of your jumpchain or knowledge of canon. All you know is that you must kill the Council of Dick Elders and break the spell by showing the world the wonders of boning.

Sad Rain (+200 CP)

The future is a depressing place and the weather reflects that. Until the Council of Dick Elders' spell is completely broken, it will rain constantly. Fortunately the future has an excellent drainage system so there will be no floods.

**Dystopian Future** (+200 CP)

The spell that influenced the people of the future to not have sex has had a severe impact on their psyche. They are all depressed introverts with eating disorders that leave them severely over or underweight.

Crude (+200 CP)

You are crude. You are always talking about and referencing sex. Instead of being humorous like Danny Sexbang, however, you just sound disgusting. This might make it hard to convince someone to bone.

Grounded Spaceship (+200 CP)

Technically the spaceship is still working, you just have no idea how to operate it. The labels on the buttons only say things like "Oh Shit!" and "UHN!", so that doesn't help much.

Two Stage Spell (+200 CP)

Now convincing someone to have sex will not break the spell over them unless you first destroy the spell's anchor. Hidden in a secure vault in the headquarters of the Council of Dick Elders lies an artifact that anchors the 1000 year spell that prevents boning. You have to find and destroy that before you can begin breaking the spell by boning.

Repulsive (+400 CP)

You are ugly, smell bad, and are as charismatic as a hemorrhoid. No one will willingly have sex with you. Ninja Brian will immediately abandon you if he is not a companion, and even your companions will barely put up with you. Good luck, you are going to need it.

Crippled (+200/400/600/800 CP)

At least one of your limbs is crippled and functions poorly. If it is a leg then you will move with a limp. If it is two legs then you can't move faster than a walking pace. A damaged arm will only be able to weakly flail and lift no more than five pounds of weight. You can take this drawback up to four times for a potential total of 800 CP.

Elite Guards (+200 CP)

The Council of Dick Elders guards in 6969 were terrible at their jobs, likely due to a compliant population making them lazy. Now they are highly skilled due to an intense fitness regime and regular training.

Dick Council Wizards [Cannot take with Dick Council Grand Sorcerers] (+400 CP)

Originally, the Dick Council Elders only had the 1000 year spell that influenced minds. Now they are all skilled wizards on par with an average Auror from Harry Potter.

Dick Council Grand Sorcerers [Cannot take with Dick Council Wizards] (+800 CP)

Originally, the Dick Council Elders only had the 1000 year spell that influenced minds. Now they are all Grand Sorcerers on par with Gellert Grindelwald from Harry Potter.

Perks

Perks can be purchased multiple times for an additive increase.

**Sexbang Flair (Free)**

You can wear any outfit and make it look good. You have the confidence and flair to walk through the middle of a major city wearing nothing but a glittery bright blue unitard with a cape and still draw appreciative eyes.

Pornstar Confidence (-100 CP)

Whether you are performing in front of a large audience or in the heat of battle you will not panic and are able to face any challenge with courage and style. You could have sex in front of a camera being televised to the entire world and not have your courage or arousal flag.

Martial Artist (-100 CP)

Being around Ninja Brian seems to have had an impact on you causing you to learn a form of self defense. Choose any real-world martial art to gain a mastery of. If you wish, you may choose to specialize in the use of a long range or melee weapon instead.

Singing Siren (-100 CP)

You have the voice of an angel and can use it with the seductive cadence of the devil. You have exceptional vocal clarity, harmony, pitch, timbre, and rhythm. Your singing voice can inspire, enthrall, and arouse as you wish. This is highly suggestive singing that pulls at a listener's emotions, not mind control.

Seductive Dancer (-100 CP)

You have an impeccable sense of rhythm and are light on your feet. Quick to learn any dance moves you put your mind to, you are truly gifted in the art of dance. Though where you truly excel is in seductive dancing. Whether it's pole dancing, lapdancing, belly dancing, or simply hip thrusting, if it is an erotic dance, you are a savant.

Luck of the Fool (-100 CP)

You are very lucky when being attacked. Lasers, or any long range attack, will frequently miss you unless they are fired by marksmen who take the time to line up their shot or in an overwhelming barrage. Even when an enemy takes the time to line up their shot, nine times out of ten something will happen to make them miss anyways. You might trip out of the way of their shot, they might be startled by a stray animal at the last second, a friend might pull you out of the way, or any number of other things might occur to save your life.

Aura of Anti-Mindcontrol (-100 CP)

You have an aura that resists subtle forms of mind control. You and anyone within 10 feet of you gains this resistance. You are still vulnerable to powerful forms of direct mind control, so don't think this gives you full immunity. If you are the one mind controlling others, this aura will not protect them from that.

Mindshield (-200 CP)

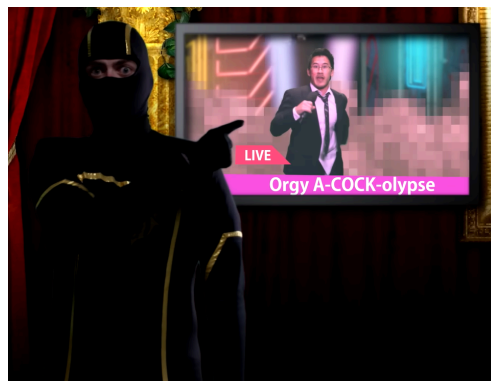

You are immune to all forms of mind control.

Charming (-100 CP)

Through flirtatious banter and body language, you can quickly convince someone who is at least minorly interested in you into your bed.

Master of Seduction [Requires Charming] (-200 CP)

You are a master of seduction who can convince anyone who doesn't actively detest you as well as several of their friends to sleep with you at the same time. This seduction even bypasses subtle forms of mind control they might be under. Anyone who sees you having sex will find themselves aroused and tempted to join in.

Emperor of Seduction [Requires Master of Seduction] (-300 CP)

You can seduce even your worst enemies. Of course they won't stop being your enemy and might try and kill you after sex or even during, so do this at your own risk. Beyond that, even witnessing you have sex on film will cause an orgy to break out among all who witness it. This orgy will act like a virus, causing anyone who sees it to join in. This could easily cause an Orgy A-COCK-olypse. The compulsive orgy and its viral nature are toggable.

Items

Items may be taken more than once unless otherwise indicated or free.

Sexbang Space Suit (Free)

A blue one piece jumpsuit with blue outerwear trunks, blue gloves, and a pair of white socks and blue sneakers.

Sexbang Unitard (Free)

A glittery blue unitard that flares at the calves and comes with a cape and blue sneakers.

NSP Collection (Free)

A complete collection of Ninja Sex Party's music and music videos.

Laser Gun (-100 CP)

You seem to have picked up one of the guard's laser guns. Might as well keep it.

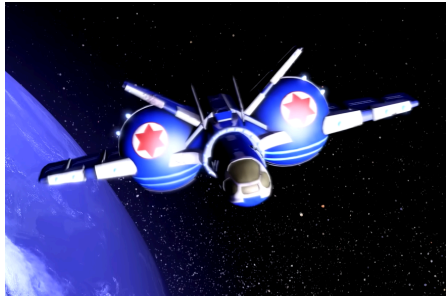

Space Lube (-100 CP)

You came to the future prepared with this 90 pound tube of space lube. You can alter the form it takes into a barrel with a dispenser for convenience if you wish. This lube is allergen-free, edible, lasts for two hours before drying, and evaporates cleanly without leaving a sticky residue. It is as slick as the highest quality sex lube on the market and can be toggled to have any flavor you wish. It refills weekly.

Council of Dick Elders Headquarters (-200 CP)

This may seem like a simple building at first glance, but this building also counts as an artifact that manipulates the minds of anyone who sees it by utilizing the Dick Elders' spell of control. The manipulation is subtle and can be resisted by those with strong wills, but people find themselves inclined to believe in and follow the directions of the owner of this building.

Tiem Musheen Spaceship (-400 CP)

Danny may not be the best speller, but he still built a time machine spaceship. It already exists in the gauntlet, but if you want to take it with you, you will need this. This spaceship can travel through time and comes stocked with some retro arcade machines, a teleporting machine (only one way, you can't teleport back to the ship), an energy shield against lasers, and even has its own holodeck!

Companions

Companions cannot purchase other companions.

Import Companion (-100 CP)

You can import all your companions, and they can take drawbacks that do not modify the world and purchase perks and items with the CP gained.

Canon Companion (-100 CP)

You can take anyone you wish from 6969 with you as a companion that is not a member of the Council of Dick Elders or Danny Sexbang. They can take drawbacks that do not modify the world and purchase perks and items with the CP gained.

Danny Sexbang (-100 CP)

It seems you didn't replace Danny Sexbang after all, you just joined him and Ninja Brian on their journey. With this Danny will join you in the gauntlet and as a companion. He can take drawbacks that do not modify the world and purchase perks and items with the CP gained. He comes with the Sexbang Spacesuit item already equipped and the Sexbang Unitard item on the ship.

Dick Elder (-50/100 CP)

You can take any of the Dick Elders with you at the end of the gauntlet. They will still be your enemies during the gauntlet, but if you take this then at the end of the gauntlet their ghost will regain a body, due to their Dick Elder magic, and have a change of heart causing them to appreciate the magic of boning. You can take one Dick Elder with you for 50 CP and the entire council of four for 100 CP. They receive 400 CP that can only be spent on perks and does not apply until the end of the gauntlet.

Rewards

Your mission was to kill the four members of the Council of Dick Elders and get at least one billion people to bone in the year 6969 with a time limit of a single year. Did you succeed?

Failure

You lose all of the perks, items, and companions purchased in this gauntlet. You can keep the NSP Collection item as a consolation prize though.

Success

1. You get to keep all of the perks, items, and companions purchased in this gauntlet.
2. For proving yourself as the savior of boning you can apply three perks purchased from this gauntlet to your bodymod (You can skip any perk prerequisites for this).
3. You can invite anyone alive in 6969 at the end of the gauntlet to join you as a follower for free as long as you can convince them.
4. You can leave immediately, extend your stay so that it lasts up to 10 years total, or end your Jumpchain and settle down in the year 6969 with a bonus of +600 CP to spend on perks and items.

Ending

So your adventure has ended. Did you prove yourself to be the hero of boning, or did you not rise to the occasion? Regardless of the outcome, you have a choice of where to go next.

Go Home: It's time to retire and head back to your world.

Settle Down: It's the future! Why would I want to leave?

Continue On: Boning shouldn't be limited to one planet. Time to spread the love!
