

## Breakout Activity

### From Microaggression to Micro-intervention:

#### Educating the Environment

Setup: A supervisee reports overhearing a colleague make a dismissive comment about clients from a marginalized group.

Roleplay with your peers and take turns being the supervisee and supervisor.

To personalize your roleplay and practice responses, you can add a detail or specific example relevant to historically marginalized groups you have had lived or professional experiences with.

- *How could you (as a supervisor) respond if you worked in the same practice as your supervisee?*

- *How could you respond (as a supervisor) if you did not work in the same practice as your supervisee?*
