2. Backlit Keyboard Gaming Laptop Under \$400

ASUS VivoBook 15 Thin and Light Laptop, 15.6" FHD Display, Intel i3-1005G1 CPU, 8GB RAM, 128GB SSD, Backlit Keyboard, Fingerprint, Windows 10 Home in S Mode, Slate Gray, F512JA-AS34

Product details:

Price: \$378.88 (List Price: \$419.99)

Specifications:

- Brand: ASUS
- Model Name: VivoBook 15
- Size Screen: 15.6 Inches
- Colour: Slate Gray
- Hard Disk Size: 128 GB
- CPU Model: Core i3-1005G1
- Ram Memory Installed Size: 8 GB

- feature Ratio: 16:9

Display: 15.6-inch Full HD (1920x1080) 4-way Nano Edge slope display with an 88% screen-to-body ratio.

CPU: Newest 10th Gen Intel Core i3-1005G1 CPU (4M Cache, up to 3.4 GHz)

RAM: 8 GB DDR4 RAM

- Storage: 128 GB PCIe NVMe M.2 SSD
- Keyboard: Ergonomic backlit keyboard with fingerprint sensor activated via Windows Hello
- Connectivity: 802.11ac Wi-Fi, Bluetooth
- Operating System: Windows 10 Home in S Mode
- Compatibility: Compatible with Google Classroom; run Google Classroom on Microsoft Edge or Internet Explorer 11
- Battery: 1 Lithium ion battery is required.
- Weight: 3.75 pounds

Customer Reviews:

- Average rating: 4.5 out of 5 stars
- Total ratings: 5,881
- Positive feedback: 71%
- 4-star ratings: 17%
- 3-star ratings: 5%
- 2-star ratings: 2%
- 1-star ratings: 5%

Pros & Cons:

Pros	Cons
Backlit keyboard for dim environments	Limited storage with 128GB SSD
Thin and lightweight design	Windows 10 Home in S Mode restrictions

Intel i3-1005G1 CPU for smooth tasks	Entry-level gaming performance
8GB RAM for decent multitasking	No dedicated graphics for intensive gaming
Fingerprint for secure login	Limited customization for gaming experience

Customer Reviews Highlights:

- **Positive:** Fast performance, great value for the price, suitable for everyday tasks, fast boot-up with SSD, backlit keyboard, lightweight design.
- **Negative:** Display viewing angles are not ideal, and weak audio speakers are unsuitable for gaming or multimedia use.

Overall, the ASUS VivoBook 15 Thin and Light Laptop, F512JA-AS34, is a capable and affordable laptop for daily use, with decent performance for office applications and internet browsing. Due to its display and acoustic limitations, it may not be the most excellent option for demanding gaming or multimedia activities. Customers give it high marks, and it has a good feature set for the money.

3. Best Cheap Gaming Laptop Under \$400

Product Name: Acer Aspire 3 A315-24P-R7VH Slim Laptop

Price: \$289.99 (List Price: \$329.99, 12% off)

Customer Reviews:

- This information is based on the provided product page.
- Verifying the details on the Amazon website is recommended.
- Making purchasing decisions should be done after verifying the details.

Conclusion:

The best gaming laptops under \$400 offer impressive performance and affordability, catering to budget-conscious gaming enthusiasts. ASUS VivoBook 14 Slim laptop features 14" FHD display, Intel Core i3-1115G4, 4GB RAM, 128GB SSD, fingerprint reader, Windows 11 Home in S Mode. However, its limitations include:

- A stylish slim design.
- Limited 4GB DDR4 memory.
- An immersive FHD display.
- A small 128GB PCIe SSD.
- Windows 11 Home in S Mode restrictions.

ASUS VivoBook 15 Thin and Light Laptop features 15.6" FHD display, Intel i3-1005G1 CPU, 8GB RAM, 128GB SSD, ergonomic keyboard. Laptop's backlit keyboard and fingerprint sensor support Windows 10 Home in S Mode. However, it may need help with resource-intensive games. The Acer Aspire 3 A315-24P-R7VH

Slim Laptop is also cheaper and has a shorter battery life. The laptop has a budget-friendly gaming performance, a slim, portable design, and basic integrated graphics.
