Hands for Community Fundraiser

Hands for Gaza Clinic •

Sep 20, 2026

Our vision is to make Hands for Community a recurring initiative, supporting those in need both locally and globally. When we see urgent crises like this one, we turn our care outward — because healing has no borders.

Meet Ansam & Family

Ansam and Ahmed are the parents of four children: Omar, Reema, and Fatema, and Zain. Reema has cerebral palsy and requires ongoing medical treatment. Zain lost his hearing due to bombing and has needed a cochlear

implant and rehabilitation. Fatema has severe vision problems that also require complex medical care.

Before October 2023, Ansam traveled from Gaza to Egypt with her four children to get them the treatment they needed, while Ahmed stayed behind. He has been trapped in Gaza ever since, unable to leave and reunite with his family.

The separation and financial strain have taken a toll on both parents, and their four children have grown up without their father, facing the very real possibility that they may never see him again.

Now, an opportunity has presented itself.

Leaving Gaza is nearly impossible but one path out is as a medical companion, someone who accompanies a patient being evacuated for medical care. To take this opportunity, Ahmed needs to cover his own travel expenses and fees, totaling $8,000 US. His family can contribute half, but the remaining

$4,000 still needs to be raised, and they have less than 60 days to do it.

I've been in touch with Ansam for about a year now. She is a wonderful mother, doing everything she can to keep her children safe and bring her family back together. She's so thankful for all our efforts and for the generosity and kindness of so many people.

Unable to Participate?

If you're unable to participate in this fundraising clinic, but still want to help, the link below will take you to the fundraising page where you can make one-time, weekly or monthly contributions.
