To whom it may concern,

I am writing to inform you that Makenzie King, a Boise State University Social Work undergraduate student, will be completing an internship at Jerome Middle School this academic year. Makenzie will be under supervision from myself throughout her internship. She also maintains supervision and guidance through her faculty supervisor, Nicole Lang, with Boise State University. Mackenzie will be learning and observing school counseling duties including student check-ins, parent meetings, classroom support, and other related duties related to student success and family and community engagement. I believe Makenzie will be a valuable asset to our counseling team this year at Jerome Middle School.

Thank you for your time,

Madison Hinojos, LMSW
