

EduTek Tech Expo

Airwatch, Education Solutions

Mission: Simplifying Enterprise Mobility -MDM (Mobile Device Management)

Addressing Mobility Challenges in Education

- Asset tracking and multi-OS management
- Student & faculty owned devices - BYOD
- Secure access to school services
- Compliance with CIPA & COPPA

Explosion of educational apps

- Application distribution
- Internal & Public apps
- Volume Purchase Program (VPP)

Mobile access to school content

- Administrative management & security

Focus on Education

- Multi-tenant Architecture - Apple Configurator Integration
- MAC OS X Management - AirWatch Browser
- Software Development Kit (SDK) - Apple Volume Purchase Program
- Compliance Engine & Reporting - Secure Content Locker
- Self-Service Portal - Multi-User Management

Multi-User Management

- Assign devices to users for short periods of time, configure access
- Email integration - Groupwise, Exchange

BYOD Management

- Enable Device Choice
- Enroll devices easily
- Manage Personal Devices
- Protect Employee Privacy
- Mitigate Business Risks
- Enable Self-service Management

Protect Employee Privacy

- Ensure privacy of personal data

Google in Education

Technology this generation

- Google believes the power of the web is to help people discover, connect and learn
- The web engages dynamic learning across a range of modalities, across an unlimited set of topics, anytime/anywhere
- Google Hangout can be used to review for Final Exams (example shown-teacher was out sick and connected with her students)
- The web helps students prepare for their careers
- Companies using web technologies grew twice as fast
- working with technology is becoming the norm
- web technology is driving innovation - car that drives itself

Technologies that meet school needs

- platform
- devices
- Apps & Content

Chromebook address the needs of managing devices

- A strong & growing set of web apps - Go to the Chrome Store
- App packs

Google Chromebooks for Education -

https://www.youtube.com/watch?feature=player_embedded&v=0QRO3gKj3qw

- Chrome is fast and sleek - how long before you get on the Internet?
- Boot cold in 8 seconds
- files and settings are stored on the web
- Easy to share

There are many Chromebook options:

- Lenovo ThinkPad Chromebook WiFi only \$429
- Management Console License - \$30 -one time fee for management

Google wants to see schools move from the traditional model of the class to a more dynamic one!
