What's Happened since HHS: "The Good, The Bad, The Ugly"

After retirement I invested in equipment for baling hay. I supply round and square bales in our area. We also board horses and have 8 of our own. At one time we were up to 21 horses. For a number of years we had our own paint stallion and bred our own mares. With the surplus of horses in the world we only breed one mare a year if at all anymore. My wife has a stained glass studio in Harlingen called Hand of Man. She has been producing stained glass products for 32 years. My latest interest is my 1998 Valkyrie motorcycle .It is a 6-cylinder cruiser. After high school I traded my surfboard in for a cowboy hat and enjoy classic country western music. When I get the chance I like to two-step.
