Privacy Policy

Lucian Boiangiu built the Tabber app as a Commercial app. This SERVICE is provided by Lucian Boiangiu and is intended for use as is.

This page is used to inform visitors regarding my policies with the collection, use, and disclosure of Personal Information if anyone decided to use my Service.

If you choose to use my Service, then you agree to the collection and use of information in relation to this policy. The Personal Information that I collect is used for providing and improving the Service. I will not use or share your information with anyone except as described in this Privacy Policy.

The terms used in this Privacy Policy have the same meanings as in our Terms and Conditions, which is accessible at Tabber unless otherwise defined in this Privacy Policy.

Information Collection and Use

Tabber application uses Screen Recording for the following features :

• Record contents and the names of active windows and Display them in the Window Switching frame. This information is not stored anywhere.

• Get window names for the "Instantly switch to the selected window when switching windows" feature. The last selected Window Name will be stored locally in the User Defaults under the key "tabberWindowNameToActivate". It will be used to activate the selected window.

• Get active windows names to see if running apps have active windows. Required for the feature "Close apps after closing the last window of the app". This information is not stored anywhere.

Any collected data using Screen Recording will be stored on the user's local machine and will not be shared with any third parties.

Log Data

I want to inform you that I do not collect any type of Log Data.
