The opening of the ceremony

It was quite normal

The participation

I felt good and meaning full

Planned well

We should not be for name sake in team and respect the batch.

The speech of the guest

Everything was fine

Like calling everyone and appreciating them for there hardwork whom ever participated in any kind of events

Excited

The team coordination

Giving away batches

The way they organised and managed everything

The way all the yrc leader , office bearers and core team behave and respond good

It went as per the plan

Nothing

The information given by guest

The participation in all events

What I liked most about the investiture ceremony was the sense of pride and responsibility it gave to the student leaders. It was nice to see everyone motivated to take up their roles seriously.

Everything was good.

The office bearers are very supportive and friendly

Everyone in team were friendly

Overall it was gud

No

Should conduct more activities

Organize more community service and health awareness programs

First of all there must be a proper allocation of the team committee members and treat all of the volunteers equally and fairly so that everyone should feel they are worth for the particular post or any other thing but here it has been unfair in many ways and there is no proper leadership skills in the higher head in the club and I feel from my side that atleast next year give the posting for the right person at right time so that others get motivated and can tend to attend all the events happens in this club and next while selecting the coordinator their must and should keep the interview for everyone equally and the committee head should check the attentiveness of each and every one plus their involvement in the club and then give the posting to people who are in the club and this were the things I felt to share my few opinion from my side.

Make some few activities and some events too it's been 3 to 4 months that we joined YRC but no events at all . I hope upcoming days will be more joyfull events ahead
