

Voluntary Supplies

Parents often ask if there are supplies they need to purchase for their child. Nebraska Statutes guarantee that all schools provide a free, appropriate public education. **Lincoln Public Schools provides all necessary basic supplies and equipment for students to use in their classroom.** Humann teachers often purchase extra supplies and materials for special projects. Extra supplies that teachers find helpful are listed by grade levels. This is a voluntary donation, not a request or requirement for any child. If you would like to purchase any items, they can be dropped off at school or sent with your child.
