### Classroom News:

Dear Families and Scholars,

In reading we are reviewing short vowel sounds in Letterland. Students will sort words by vowel sounds and be introduced to the digraph -ch and the spelling pair -qu. Please be sure to complete daily homework in the front cover of the yellow folder. Your help at home is very important in your child's success. This week we will read **Community Helpers at School**. Students will be able to identify the main topic and recall key details. They will also use headings, photos, and text to answer questions about the text. In math, they will continue to add and subtract within 20, using strategies such as counting on, counting back, making a ten, using number lines, and using relationships between addition and subtraction. There will be a math assessment on Wednesday. In science, we are learning about force and motion. Students will learn vocabulary such as push, pull, and force.
