Algebra 1 Team Tutorial Schedule

Please see your Class Website for specific times and dates.

Philosophy

GROWTH MINDSET IN MATHEMATICS!

Learning mathematics is like learning to play a sport, or an instrument. You cannot become skilled by watching someone else perform. Mathematics is not a spectator sport. You must participate. It requires practice, self-dedication, sharing, motivation, and doing your best.

“Education is not the learning of many facts, but the training of the mind to think.” - Albert Einstein

Every accomplishment
starts with the
decision to **try.**
