

Elk Mound Area School District Funding

*Numbers are approximate

EMASD Funding

What does this mean? For every dollar spent by the EMASD, approximately 80 cents comes from state aid, 17 cents come from local taxes and 3 cents comes from federal aid.

Why so high? It has to do with the relationship between property value and student enrollment(three year rolling average). We are considered property poor, and based on this, we receive higher aid than many local districts. Add in that we have increased enrollment, this creates the perfect storm for the funding we receive from the state level.

If you have any further questions, please give Eric Wright a call at 715-879-5066 and I would be happy to answer them.
