

Detailed Project Description and Timeline

The detailed project description should be a robust explanation of how the Offeror will improve understanding of air quality in Colorado or help to mitigate air pollution in the state using new and/or emerging technology. The detailed project description should include:

Overview of the project's goals and key objectives as well as how they will be achieved.

Click or tap here to enter text.

Impact statement articulating the impact the proposed work would have on the state, stakeholders, fee payers, and the public.

Click or tap here to enter text.

Project timeline along with a description as to why that amount of time is needed and how the results at the end of the project will remain relevant to the issue the project is trying to address.

Click or tap here to enter text.

Description of any synergy between the proposed project and related ongoing or planned research activities in Colorado.

Click or tap here to enter text.

Overall benefits of the project, including environmental, community, local employment goals, etc.
