Re: Letter of Endorsement

Project: Science Education Partnership Award – Health In Our Hands

Greetings Dr. Krajcik,

The Community Based Organization Partners (CBOP) Community Ethics Review Board (CERB) has completed its review of your submitted proposal and I am pleased to provide this letter of **endorsement for your project**.

The review process found your project to be ethically sound and consistent with the vision and mission of the CERB. It was further determined that because it focuses on an area that is an evolving field, learning these concepts at an early age promises a higher level of long-term engagement and success for the students, their families, and the broader communities.

Thank you again for your willingness to participate in the CERB process. Please know that we recognize and acknowledge the value of this project and lend our full support to its current and future success

Respectfully

CC: CBOP CERB Members

Guiding Principle: *“Doing NO harm, leveraging mutual benefit, and ensuring equity.”*
