## KBI learning modules for Nova Scotia Grade 5 Curriculum

Curriculum Unit/Big Ideas/Outcomes/Competencies	KBI Learning Module(s)	KBI Lessons	Accompanying Unit/Lesson Plans
<p>Organs and systems function together to help humans and other animals meet their basic needs. Learners will explore the major internal organs through the use of models and simulations. Many factors can affect a healthy body and an analysis of how the body functions to meet its needs will allow learners to explore the role they play in maintaining a healthy body.</p> <p><b>Outcome: Describe the major functions and structures of the respiratory, digestive, excretory, and circulatory systems. 302-5</b></p> <p><b>Elaborations - Strategies for Learning and Teaching</b></p> <p>Students should investigate the role of the digestive system in providing nourishment for the body functions. Major organs include teeth, the tongue, oesophagus, stomach, small intestine and large intestine.</p> <p>Students should investigate the structure and function of the circulatory system. Major organs include the heart and blood vessels (arteries, veins, capillaries and blood).</p> <p>Students should investigate the structure and function of the respiratory system. Major organs include the nose, trachea, lungs and diaphragm.</p> <p><b>HEALTH 5</b></p> <p><b>Outcome: Health Learners will investigate how health behaviours enhance physical, mental, emotional, social, and spiritual health</b></p> <p>Investigate healthy behaviours that can impact transmission of communicable diseases (CZ, COM, CT, PCD)</p>	<p>Circulatory System</p> <p>● The Human Body - Respiratory System</p>	<p>01. What Are Human Body Systems?</p> <p>02. Our Beating Heart</p> <p>03. Our Amazing Red Blood</p> <p>04. Ways To Keep Our Circulatory System Healthy</p> <p>05. This resource was made by a teacher to be used/adapted as needed.

### ***Additional lesson information and assessment suggestion***

#### **Lesson Quizzes**

- To do quizzes, teachers have two options:
  - Make a class and complete the lesson quiz on behalf of a class after collecting responses from students. See [Kids OFFLINE Mode](#).
  - Make a class and give students the class code to join and complete online quizzes individually.
- There are additional quizzes for most learning modules that are not listed above.
  - There is an optional Trivia quiz at the start of a learning module, which is used as an ice-breaker and pre-test.
  - There is also a summative Final Quiz at the end of most learning modules. For the Final Quiz, students have only one chance to earn vaccines the first time they do it.
- For all other lesson quizzes, students (or teachers using Kids OFFLINE Mode) can complete them multiple times to improve their quiz scores. The unique aspect of Kids Boost Immunity is that learning is linked to helping others. Students scoring 80% or higher on a quiz earn vaccines (like polio, tetanus, measles) through UNICEF.

#### **Assessment option**

To encourage students to take the time to learn the content before doing a quiz, teachers can use the number of times a student completes a quiz as part of their assessment. For example, a student scoring 80% or higher the first time they do a lesson quiz receives a higher grade than a student who does multiple quizzes in order to reach this higher level of achievement.
