

For the best experience, students should be using the browser “Chrome.” It is free. If you are not using it, you can download it here: <https://www.google.com/chrome/>

1. Log into Chrome with your school ID and password. Contact your teacher if you do not have this. Remember, when prompted for an email, you use the student ID number followed by @stu.sandi.net
2. If you have never logged into Chrome, you will first see this screen. If you have other users already, see the instructions at the bottom of this document. Your child is already a Chrome user from logging in at school so click “Already a Chrome user”:

3. Sign in using the student's email which is the student ID followed by @stu.sandi.net

The screenshot shows a web browser window with two tabs labeled "Sign in - Google Accounts". The address bar displays the URL: `accounts.google.com/signin/chrome/sync/identifier?ssp=1&continue=https%3A%2F%2Fwww.google.com%2F&flowName=GlifDesktopChrom...`. The main content area features the Google logo at the top, followed by the heading "Sign in to Chrome". Below this, a message states: "Sign in with your Google Account to get your bookmarks, history, passwords, and other settings on all your devices". A text input field labeled "Email or phone" contains the email address "546320@stu.sandi.net". To the right of the input field is a "Next" button. Below the input field, there is a link for "Forgot email?". Further down, a message says "Not your computer? Use Guest mode to sign in privately." with a link to "Learn more". At the bottom left, there is a link to "Create account". The footer includes "English (United States)" with a dropdown arrow, and links for "Help", "Privacy", and "Terms".

4. The SDUSD portal screen will appear. Enter student ID (just the number) and the student password and click "Sign In"

The screenshot shows a web browser window with a single tab labeled "Sign in". The address bar displays a complex URL starting with `adfs.sandi.net/adfs/ls?SAMLRequest=fVLJTsmwEL0J8Q%2BR71kahEBWE1RAIEosUZty4OY6k9Rt7Akep4W%2Fx01BIANcn8dvmTfjq3fdBI...`. The page layout is split into two main sections. On the left, there is a large image of a child wearing a straw hat and goggles, with a dark blue banner at the bottom that reads "Oh! Hi There! Looks like you need to sign in" followed by two right-pointing arrows. On the right, the "San Diego Unified SCHOOL DISTRICT" logo is displayed above a message: "Access to this webpage requires an Employee or Student ID. Forgot your password? Try the Password Self Service or contact the IT Help Desk". Below this message are two input fields: the first contains the student ID "546320", and the second is for the password, shown as a series of dots. A "Sign in" button is located below the password field. At the bottom right of the page, the footer text reads "© 2013 Microsoft SD Unified Home".

5. Save the password

6. Click on Turn on sync:

7. You will be asked for your google email again and click “Next”:

Google

Sign in to Chrome

Sign in with your Google Account to get your bookmarks, history, passwords, and other settings on all your devices

Email or phone

546320@stu.sandi.net

9. Link your data by clicking on “Link data”

10. Turn on Sync - Click on “Yes, I’m in”

At this point, your Chrome Browser will be set up to look like the way the student's chrome book looks at school (same bookmarks and settings). Your student will do everything through google apps (3x3 "Waffle" either in the bookmark bar or in the upper right hand corner) or through Clever.

If you already have users in chrome, the following is how to add the student's school account.

1. Select the user icon in the upper right hand corner. Depending on settings, select "Manage people" or "Add Person":

2. Type a name and click "Add"

3. You are ready to go back to the top of these directions:
