RE: Fall 2024 CRO Ruling 6

Hello all,

On September 19th, 2024, the Chief Returning Officer received a report that Ege Feyzioglu had previously been elected to the position of Webmaster during the term of 2020-2021. This constitutes a direct violation of bylaw 2, 0.0.5, which states that a project director, once elected, may not run for the same position again, unless they had held the position for less than 2 months OR they received special permission from the Board of Directors. Upon investigation, it was revealed that neither of the conditions needed for the candidate in question to run for the position again were met.

As a result, the candidate in question is hereby disqualified from their candidacy for the Webmaster Project Director position this election period. This will be reflected in the All Candidates List, found [here](#).

This decision may be appealed under the process outlined in [Bylaw 3, section 10](#).

// Original Signed //
