

My name is Ms. Peterson. I have been teaching at Stark School for 25 years. This year I will be teaching third grade. I am looking forward to meeting you and getting to know you and your families.

In 3rd grade math, we will focus on multiplication, division, fractions, measurement, and so much more! We will also learn lots of math games that help us practice our new skills, so we can be experts.

We will be using CKLA (Core Knowledge Language Arts) for our Literacy and Skills Instruction. As third graders, not only do we want our reading to be fluent, we want to be able to learn new information from the texts we are reading.

In Science we will be learning about Animals, The Human Body, The Solar System, Light and Sound, and many more topics!

Our classroom is like a family. You will see friends you know from years past, and make new friends. Together we will share, take turns, help each other and work as a team. I'm looking forward to meeting you and your families and helping you along your way to a successful school experience.

Don't forget to check out the Supply List for 3rd grade on the Stark School website!

I'll see you on Wednesday, August 27th.

**Ms. Peterson
3rd Grade
Room 169**

**I will be using the REMIND app to communicate with families.
