Captain Dave's Dolphin and Whale Safari operates all year round from Dana Point Harbor and see whales throughout the year, plus up to five different species of spectacular dolphins on a regular basis, including mega-pods that can number up to 10,000 dolphins. During the months between December through May we see gray whales on their annual migration between the waters off Alaska and the lagoons of Baja. In the months between May and November we see the largest known animal to ever have lived, the giant blue whale. Our area has the highest concentration of dolphins and blue whales on earth! Throughout the year we also see fin whales, minke whales, humpback whales, and occasionally orcas. Rare whales that could be seen at any time include Bryde's whales, sei whales, sperm whales, pilot whales, and false killer whales.

[Boudin SF](#)

Enjoy 10% off at Boudin SF in Irvine (right across the street from Hotel Irvine) when you show your WITS badge!

A cute little sourdough bread shop, Boudin SF totally jives to the West Coast vibe. The Boudin family still use the same sourdough recipe they started their shop with in the '40s. It's pretty exciting that we have a taste of history just steps away.
