Got question? 

Avatar

1. Who am I writing to? Who is my avatar?
2. Where are they now? Where are they emotionally and physically? What problems are they dealing with? What are their challenges? What are their dreams? What are they thinking and feeling? Where are they inside my funnel?
3. What actions do I want them to take at the end of my copy? Where do I want them to go?
4. What must they experience inside of my copy to go from where they are now to taking the action I want them to take? What are the steps that I need to guide them through to take them from where they are now to where I want them to go?

1. His name is Eric, he is still young and he is currently 24 years old. Dark, short hair, athletic build, fairly tall I would say about 185cm. He has his morning routine, during which he does push-ups as soon as he gets up, goes to take a cold shower and goes to work without waiting for anything, after work in the morning for about an hour he goes to have breakfast, and after breakfast he goes to work, after work Eric goes to work out, and after that he does his evening routine, during which he spends time planning his next day, read a book or an audio book, thinks about what he is grateful for and goes to sleep.
2. Erik has created his own online store, he previously had another online store where he sold various products, but he was not successful in developing it, so he decided that a one-product store would be much easier to develop and the quality would be better. Currently, he has established a drone one-product online store. Perku24.It is the name of his store. He dreams that his store will be a well-known brand, that there will be a constant flow of customers, so that he can live a financially independent life.
3. I want to make his brand well known and help him get a steady stream of customers.
4. He needs to see that my copy is of good quality, helps readers understand what it's about, and needs to engage readers, keep them interested. I have to show some kind of results that will bring him at least some amount of customers. I need to prepare quality copy that not only engages readers, but also prompts them to buy and thus generate a steady stream of customers.

Subject: **DID YOU KNOW THAT?**

Hello (Reader),

Let me tell our story

Our story began a little more than 10 years ago

When I sat on the grass and looked at the birds and envied them...

I envied them for what they see high in the sky, but I do not see...

Then I couldn't understand why they can fly and see those amazing views from up high, but I can't

To fly like birds, I made wings out of a large piece of cardboard and sticks

But for obvious reasons, I couldn't do it...

When I was growing up, my dreams didn't go anywhere, I still wanted to fly like birds and see those amazing sights, what they see

And so the idea was born to create drones that would allow us to see those amazing views without expending physical energy.

We have designed drones that are light and compact

Which would have quality cameras to capture those amazing images

We also want to let you know that if you want to buy our drones, we have a discount for new customers!

Get 15% off your first drone purchase!

If you want this discount now,

[Then click here and get it](#)

That's all I want to say in this short email

Follow our email below to receive discounts and news tailored to our subscribers

We wish you a good flight with our drones!

See you next time!
