

Event Bathroom Description Policy

As outlined in our [DiscNY Guidelines for Gender Inclusion](#), all DiscNY programs must include information about the location's bathroom availability and signage. Because safe and equal bathroom access is a fundamental human right, as well as the law of the land in New York City, **every New Yorker has a right to use the bathroom consistent with their gender identity**, regardless of their gender assigned at birth. It has been illegal in New York City to discriminate against an individual on the basis of gender identity or expression, including denying access to bathrooms, since the [2002 NYC Human Rights Law](#). In 2016, as outlined in [the Mayor's 2016 executive order](#), all members of the public must be allowed to use the single-sex facility that most closely aligns with their gender identity and expression, without being required to show identification, medical documentation, or any other form or proof of verification of gender. **Thus, regardless of the signage of bathrooms at NYC fields and parks, anyone of any gender identity is legally able to use whichever bathroom they choose.**
