

Activity 2

Shapes and Space

Task: 1 minute object challenge!

Resources: Stop watch and any household items!

Discuss how long one minute is, then set a one minute timer and see how many objects you can gather within the time frame.

Each time you do it, set a challenge, for example: find me five objects that are blue, find me three objects that are rectangular shaped, find me two objects that are shaped like an oval, or find me three objects of the same size!

You can vary it with size, shape and colour and the number of objects.

Make this a fun challenge by taking turns!
