Last updated: 2020-03-20

## In this article:

- What is the Vision Resource Center?
- How do I access the Vision Resource Center?
- What can I do in the Vision Resource Center?

## What is the Vision Resource Center?

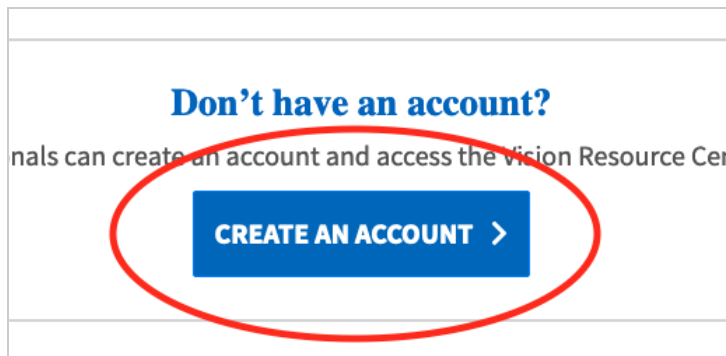

The Vision Resource Center is an online learning and collaboration platform for all professionals in the California Community Colleges. The Vision Resource Center provides access to a catalog of over 7,000 learning modules from Skillsoft and LinkedIn Learning (now offering all Lynda content).

To access The Vision Resource Center, you must first set up a personal account. The account will allow you to track your training in your “transcript” and will save your progress on courses until fully completed. Accounts can be created in as little as thirty minutes. The email used to create the account must be a valid email account within the California Community College System.

## How do I access the Vision Resource Center?

### Create an account

1. Go to: <https://visionresourcecenter.cccco.edu/login/>
2. Click on **Create an Account**

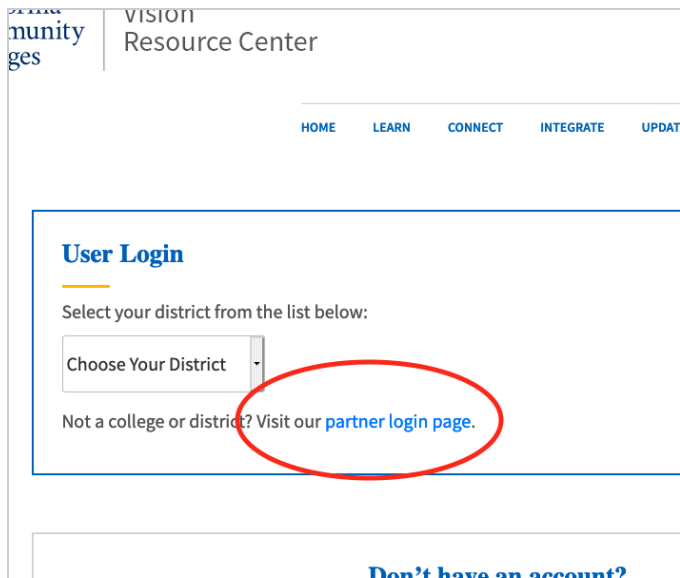

3. You will then be taken to the registration screen. Fill out the form completely, making sure to enter your District email (not a personal email address). For 'CCC Affiliation' choose 'San Diego City College'. Then, click **Log In** to submit the form.
4. Check your SDCCD email for a verification message from the Vision Resource Center. Click on the link provided to activate your account.

### Log in

1. Once your account is activated, go to <https://cccpln.csod.com/client/cccpln/default.aspx> to log in.

- ★ *If you happen to land on the page below, please click “partner login page” to be taken to a separate login screen (used for schools who have not integrated with the VRC)*

## What can I do in the Vision Resource Center?

You can take online classes, view video tutorials, as well as participate in online communities and discussion forums ranging from a variety of topics related to our work in the California community colleges.

To get started, please take ten minutes to watch this video: [Vision Resource Center Walkthrough](#)
