

## What Conservatives Can Do Now

I started this January 6, 2021 after seeing that we have probably lost the two senatorial seats in Georgia.

We have been overwhelmed by Hollywood, Silicon Valley, foundations now run by the children and grandchildren of great people, teachers and professors more interested in pay and benefits than your children and who themselves were taught by leftists.

RINOS like Mitt Romney fought against President Trump. Weak Republicans were worthless in many cases when they could have helped. Many are more interested in enriching their bank accounts through helping crony capitalists who deal with China. China actively helps candidates who will help them. Eric Swalwell is a prime example. They gave him a girlfriend who helped raise money from the Chinese.

Today Senator Mitch McConnell fought against the congress considering overturning the election even though it is a Constitutional process. His Chinese wife has made many millions as a crony capitalist dealing with China. Mitch even lied and said that this process has never happened before. It has happened twice before. Senator Cruz later gave a speech backing President Trump and

proposing a study group that would work for ten days and make a decision.

Illegal and legal immigration has been steadily eroding the conservative base since Ted Kennedy helped change our immigration laws decades ago. Biden plans to ramp up immigration to guarantee complete control over the people. We must offer a better alternative by limiting immigration and securing our borders.

We have discovered that The Swamp is just another name for Big Government whether in states, counties, cities, or towns. It must all be drained when it is bloated and corrupted.

We have seen how President Trump was persecuted before and during his presidency. He will continue to be persecuted until he dies as will all who actively work against our massive bureaucracies. Be prepared to fight.

Show how the 2020 election was stolen and correct all the things that allow cheating to happen. If not done our democratic republic and our constitution is LOST.

See Election Cheating to know how many ways our system has been undermined.

Teach others how Democrats are destroying America and its culture.

Teach others the evils of communism, socialism, liberalism, and atheism.

Here is one great resource.

My topic on Watching Hollywood includes information on the goals of communism and many examples of how our culture has been poisoned by much of their work.

Get rid of RINOS whenever feasible. This may not be possible in blue states though. Fight for the best person that can keep the seat if unable to win the primary or if the district is just too Blue.

Here are those who supported President Trump:

Brand the solid conservatives you want to promote with an additional name such as Constitutional Republican, Trump Republican, or whatever is decided upon. Insist on them being firm supporters of the Constitution as it is literally written (Not always as the Supreme Court Justices decide).

Focus on reducing the size of government and all the bureaucratic infringements on the people.

Decrease the number of government employees and their bloated salaries, benefits etc.

Quit spending federal money on four year colleges that are teaching socialism, gender studies etc.

Get private school vouchers passed and enable home schooling and charter schools
