

Egypt Startup Ecosystem Canvas (Draft v1)

See the most recent infographic at

<https://fi.co/insight/egypt-s-startup-resources-list-for-entrepreneurs-accelerators-incubators-investors>.

Contributions below will be included in the next release!

General Tips:

- **Do not edit the highlighted areas.**
- **Each resource should only be linked, and listed once**, or else the list will become unwieldy.
 - When deciding an appropriate category for a resource, simply choose the *earliest* category or startup phase that the resource *primarily* serves.
 - Also, if one resource has several "brands" (ex. a co-working space that has a separate event series), it is perfectly appropriate to list out those brands as separate resources (listed under their different brand names).
- **List all resources in alphabetical order.** This helps deter favoritism and keeps your canvas as objective as possible.
- **Open up contributions to your local community.**
- The Startup Ecosystem Canvas was created to make your ecosystem more transparent and inviting to newcomers. **Keep this goal in mind.**
- Download the worksheet, see all guidelines, and view examples at <http://fi.co/canvas>.

This community resource was created by the [Founder Institute](#), the world's premier pre-seed startup accelerator. If you are building a company in Egypt learn more at <http://FI.co>.
