

Privacy Policy

****DragonFly Maze****

Last updated: May 21, 2026

Introduction

DragonFly Maze ("we", "our", or "the app") is a maze puzzle game developed for iOS. We respect your privacy and are committed to protecting any information associated with your use of the app. This Privacy Policy explains what data is collected, how it is used, and your choices regarding that data.

Information We Collect

Information We Do Not Collect

- We do not collect personal information such as your name, email address, phone number, or physical address.
- We do not require account registration to use the app.
- We do not access your contacts, photos, camera, microphone, or location.

Information Collected Automatically

****Game Center Data****

The app integrates with Apple Game Center to provide leaderboard functionality. When you are signed into Game Center, your Game Center display name and scores (highest level completed) are shared with Apple's Game Center service. This data is governed by Apple's Privacy Policy.

****Advertising Data****

The app uses Google AdMob to display interstitial advertisements. Google AdMob may collect certain device and usage information to serve relevant ads, including:

- Device identifiers (such as advertising ID)
- IP address
- General location (country/region level)
- App usage data related to ad interactions

This data is collected and processed by Google in accordance with [[Google's Privacy Policy](https://policies.google.com/privacy)] (<https://policies.google.com/privacy>).

Information Stored Locally

- Game progress (current level) is stored locally on your device.
- No game data is transmitted to our servers.

How We Use Information

- **Game Center**: To rank players on leaderboards based on levels completed.
- **Advertising**: To display ads that support the free availability of the app.

Third-Party Services

The app uses the following third-party services, each with their own privacy policies:

Service	Purpose	Privacy Policy
Apple Game Center	Leaderboards and achievements	[Apple Privacy Policy] (https://www.apple.com/legal/privacy/)
Google AdMob	Advertising	[Google Privacy Policy] (https://policies.google.com/privacy)

Children's Privacy

The app does not knowingly collect personal information from children under 13. The app does not include any user-generated content, social features, or in-app purchases. Ads displayed are served by Google AdMob, which may apply child-directed treatment based on your device settings.

If you are a parent or guardian and believe your child has provided personal information through a third-party service, please contact the respective service provider directly.

Data Retention

We do not store any user data on external servers. All game data is stored locally on your device and can be removed by deleting the app.

Your Choices

- **Game Center**: You can disable Game Center in your device's Settings to prevent score submission and leaderboard participation.
- **Ad Tracking**: You can limit ad tracking through your device's Settings > Privacy & Security > Tracking. You can also reset your advertising identifier in Settings > Privacy & Security > Apple Advertising.
- **Delete Data**: Uninstalling the app removes all locally stored game data.

Changes to This Privacy Policy

We may update this Privacy Policy from time to time. Any changes will be reflected by updating the "Last updated" date at the top of this document. Continued use of the app after changes constitutes acceptance of the updated policy.
