

The School of Environment, Geography, and Sustainability regularly hosts scholars from around the world to exhibit their most recent research and findings. Talks and events listed here are part of the Lucia Harrison and Gwen Frostic Colloquium Series unless otherwise noted. These events are open to the general public and all students are encouraged to attend these unique seminars to gain invaluable information regarding cutting edge studies.

All events are held at 3 pm in 2119 Wood Hall (unless stated otherwise).

---
