PROFESSIONAL SUMMARY

User-Centric Product Designer with a B.Tech in Computer Science and hands-on Android development expertise. Over 1 year of experience building end-to-end digital experiences, from wireframing to clean code implementation. Adept at optimizing design-to-development handoffs by writing modular native Android applications using Kotlin, Jetpack Compose, and MVVM, ensuring pixel-perfect execution of design systems.

SKILLS

- **Product & UI/UX Design:** Figma, Google Stitch, Canva, Material Design, Prototyping, Wireframing
- **Vibe Coding & Agentic Workflows:** Replit, Google Antigravity, GitHub Copilot
- **Native Android Development:** Kotlin, Jetpack Compose, XML, MVVM Architecture, Room Database, SQLite, Retrofit, REST APIs.
- **Cross-Platform & Game Dev:** Flutter (Dart), Unity.
- **Cloud, Backend & Databases:** SQLite, Firebase, Supabase, Room Database.
- **Machine Learning & AI :** TensorFlow, TensorFlowLite, scikit-learn.
- **Collaboration & Version Control:** Git, GitHub, GitLab, Confluence.
- **Frameworks & Design Kits:** Material Design 3, iOS 18.

EDUCATION

B.Tech, Babu Banarasi Das University

2021 - 2025

XII (PCM), Kendriya Vidyalaya

2020

X, Kendriya Vidyalaya

2018

TRAININGS

IKAGAI School of AI

Lucknow, Uttar Pradesh

Jun 2025 - Jul 2025

Trainee, Machine Learning & DSA

- Mastered Python and data analysis through an 80+ hour training program at IKAGAI School of AI.
- Developed predictive machine learning models using Scikit-learn, Pandas, and NumPy for complex datasets.
- Enhanced software engineering fundamentals by applying Data Structures and Algorithms to optimize code performance.

WORK EXPERIENCE

InternsElite

Gurgaon, Haryana

Apr 2024 - July 2024

Android Developer Intern(Remote)

- Mastered Dart and Flutter to implement hybrid mobile development solutions.
- Developed advanced features including form validation, custom themes, state management, and navigation.
- Applied learned concepts by successfully delivering two real-time live company projects.

F Salon Academy LLP

Ghaziabad, Uttar Pradesh

Sept 2024 – Dec 2024

UI Designer/Mobile Developer (Remote)

- Led design and development of the new Community Page, establishing information architecture and user flows via UI/UX principles.
- Built maintainable UI code and managed feature versioning through GitHub branch maintenance.
- Integrated Meta authentication and redesigned the UI to meet updated login and community portal specifications.

PROJECT

A Connect (Figma Prototype)(Research Paper)

Nov 2024 - May 2025

- Led end-to-end design as the solo UX/UI designer, establishing the application architecture, user personas, and high-fidelity interactive prototypes in Figma.
- Designed and developed a native Android application using Kotlin, Jetpack Compose, and MVVM to implement operations seamlessly.
- Engineered a comprehensive design system based on Material Design principles, achieving complete visual consistency across the student dashboard, alumni portal, and admin interface.
- Collaborated with the development team members to flawlessly implement a secure, role-based Firebase backend, ensuring design intent translated perfectly into a high-performance production app.

Dr. Mitra (Figma Prototype)

Apr 2025 - May 2025

- Owned the end-to-end UI/UX lifecycle, translating complex healthcare workflows into an intuitive, accessible, and compliant doctor-patient mobile experience.
- Conducted user research to architect navigation flows, reducing the friction for appointments and accessing digital records.
