Your student's scores on the NWEA MAP assessments will always be available in your Aeries Parent Portal. Sign in to Aeries and go to Test Scores on the left side. Select: **Test Scores** to view your child's MAP data.

The Percentile Range tells you where your child scored on this test relative to over 9 million students who take this test across the country. The percentile scale is calibrated about every five years and represents achievement during a non-pandemic school year. Testing conditions, learning, motivation, and distractions can affect your child's scores. Please remember that this is one measure and is not seen as summative but as informative. Grade level is considered to be the 40th -60th percentile range.

Student Test Scores are reported in RIT Scale.

2025 reading student achievement norms

	Fall		Winter		Spring	
Grade	Mean	SD	Mean	SD	Mean	SD
K	138	9	146	11	152	13
1	155	13	163	14	168	16
2	170	17	177	17	182	17
3	185	18	190	18	194	18
4	196	18	199	18	202	18
5	204	17	206	17	208	17
6	209	17	211	17	212	17
7	212	17	214	17	215	17
8	216	17	217	17	218	17
9	216	18	217	18	217	18
10	218	18	218	18	218	18
11	218	18	218	18	218	19
12	218	19	217	19	216	19

2025 mathematics student achievement norms

	Fall		Winter		Spring	
Grade	Mean	SD	Mean	SD	Mean	SD
K	141	12	151	13	158	13
1	159	13	168	14	175	14
2	173	15	181	16	187	16
3	184	16	193	16	199	17
4	197	16	204	17	210	18
5	206	16	212	17	216	18
6	210	16	216	17	220	18
7	217	17	221	18	224	19
8	222	18	226	19	229	20
9	225	18	227	19	229	21
10	227	19	229	20	231	22
11	229	20	231	22	233	23
12	228	21	230	22	231	23

Use the table above to see how your child's RIT score relates to grade level achievement on the national norm scale. Compare the scores given to the "Winter Mean" score columns. The SD or standard deviation tells you that plus or minus that amount would account for about two thirds of all test taker scores across the country.

How to help your child with reading:
You can use your student's Lexile reading score to see how they are comprehending "the what" of their reading. Selecting reading that is at or just above your child's lexile level is a highly recommended activity to build reading fluency. Students can practice skills in Imagine Language and Literacy. Students Login to Clever, and Click on Imagine Language and Literacy.

How to help your child with math:
We have used your child's math score to create a custom learning path in Imagine Math (Located in our CLEVER portal). They can work on this all summer long. They can also practice in Imagine Math Facts (In CLEVER) or Khan Academy See how here. You can also use this conversion chart to change your MAP math score into a quantile score which you can then use to access math practice materials on the state's new lexile and quantile hub here.

Where can I get more information? Check out nwea.org/familytoolkit for more information on MAP Growth, how it works, what it measures, and FAQs.
