ML club Meeting minutes:
Time: Aug 14, 11am-12pm
Attendance: Ying Wang, William, Joshua, Nemo, Yaocheng

Goal:
- Realize progress on hackathon projects
- Q&A for

1. (for reference) Machine learning hackathon group and project
   - Group 1: house price prediction
     - Coach, TA: Jasper, William, and Yaocheng
     - Member: Gerald, Michael, Brandon, and Vincent
     - Action item:
       - Meeting Aug 7 afternoon (time TBD)
       - Plan
       - Milestone
       - Prepare material for Hackathon
   - Group 2: logistic regression classifier to recognize cats
     - TA: William and Yaocheng
     - Member: Joshua, Adrian, Nemo
     - Action item:
       - Learn Neural Networks and Deep Learning week1 and week2
       - Finish the project
       - Prepare material for Hackathon
   - Group 3: Deep L-layer neural network, classifying cat images from non-cat images or other topic
     - Coach: Ying Wang
     - Member: William and Yaocheng
     - Action item:
       - Decide topic
       - Finish the project
       - Prepare material for Hackathon

Current progress:
Joshua: “doing fine”
Nemo: didn’t have much time to work on project, need to contribute

William & Yaocheng: on final steps

2. Review code for logistic regression model (course 1, week 2)

3. Q&A
Need 3-min video, for details about submission ask Jenny and Jas
