⭐ THE DUAL-FORCE VALUE CREATOR SYSTEM™

Turn any idea or negative moment into high-value digital assets with just two prompts.

👶 WELCOME! LET'S MAKE THIS SUPER SIMPLE.

You only need two prompts.

You only need ChatGPT.

And you only need to follow three tiny steps.

This guide will walk you through everything.

so you'll never feel stuck, confused, or overwhelmed.

Ready? Let's go.

💛

STEP 1 — Copy & Paste Prompt #1 To Generate Your Value Stack

This step creates 15 ready-to-use digital assets in one shot.

👉 Where to paste:

Open ChatGPT →

Start a new chat →

Paste Prompt #1 inside →

Press Enter.

👉 What this does:

You instantly get 15 premium stack items you can sell, use as bonuses, add to funnels, or expand into digital products.

👉 IMPORTANT:

Inside Prompt #1, you will see this sample topic:

"being scared to sell or promote your offer"

This is JUST an example.

🟡 If you want to use your own topic:

Replace that text with ANY:

Keyword

Pain point

Niche

Negative moment

Complaint

Problem

Idea

Example:

Replace it with → "Instagram engagement"

or → "failed launch embarrassment"

or → "email marketing for beginners"

Anything works.

📌 HERE IS PROMPT #1 — COPY/PASTE INTO CHATGPT

You are a world-class marketing alchemist and digital-asset creator.

Your job is to take ANY input—whether it's a keyword, niche, idea, pain point, or negative situation—and instantly transform it into a stack of 15 high-value, ready-to-use digital assets.

Here is your input for this example:

"being scared to sell or promote your offer"

Interpret the input in TWO ways at the same time:

1) As a normal keyword/niche/topic

2) As an emotional "negative-to-positive" transformation story (problem → insight → opportunity → marketing angle)

Now generate a stack of 15 premium assets that combine:

Bucket A — Proven high-demand items:

• cheat sheets

• checklists

• templates

- swipe files

- action plans

- frameworks

- prompt packs

- scripts

- micro-workbooks

- story maps

- blueprints

AND

Bucket B — Emotional + transformational items:

- problem-flip scripts

- negative-to-positive story templates

- identity-shift sheets

- adversity-into-content maps

- "turn your mistake into a marketing moment" files

FOR EACH of the 15 items:

- Give it a powerful, curiosity-pulling NAME

- Add a 1–2 sentence high-value description

- Make it instantly usable and polished

- Tie it back to both marketing utility AND emotional transformation

- Keep the tone bold, energetic, and ethical

- NO fluff, NO filler, NO generic AI output

RULES:

• All 15 items must be unique

• All must feel premium enough to sell

• All must be instantly deployable

• All must make the user think "I could offer this today"

Output cleanly numbered 1–15, each with:

Name + Description.

STEP 2 — Choose ONE Item You Want to Turn Into a Mini Product

After you run Prompt #1, ChatGPT will give you a list of 15 awesome assets.

Choose any one that you love.

Examples:

"Fear-Flip Story Map"

"Confident Seller Checklist"

"Adversity-to-Authority Script Pack"

"Offer-Bravery Framework"

There's no wrong choice.

Just copy the name of the item you want.

That's it.

STEP 3 — Use Prompt #2 To Instantly Build the Full Deliverable

This will turn your chosen stack item into a complete 4–9 page guide, fully written, structured, formatted, and ready to use or sell.

👉 Where to paste:

Start a new ChatGPT chat →

Paste Prompt #2 →

Press Enter.

👉 IMPORTANT:

After pasting Prompt #2, ChatGPT will ask:

"Which stack item do you want to expand?"

Just paste the name of the item you copied from Step 1.

Done.

📌 HERE IS PROMPT #2 — COPY/PASTE INTO CHATGPT

You are an elite marketing creator and story-strategist.

Your job is to take ONE of the stack items generated earlier and expand it into a COMPLETE mini digital product built around clarity, action, transformation, and emotional resonance.

The chosen example topic that guides the emotional shift is:

"being scared to sell or promote your offer"

TASK:

Transform the selected asset into a fully structured deliverable that feels like a polished 4–9 page guide.

Your expansion must include:

1) A short, powerful "What This Is + Why It Matters" intro

2) 4–9 sections that match the asset type

(templates → fill-ins, frameworks → steps, guides → checklists, scripts → word-for-word, maps → examples, etc.)

3) A subtle negative-to-positive transformation thread

(fear → clarity → reframing → opportunity → confident action)

4) Action-first writing with zero fluff

5) Clear, simple, high-authority language

6) Tangible steps people can use immediately

7) A final "How to Use This Today" micro-action plan

RULES:

- NO theory dumps

- NO generic motivational talk

- NO filler

- Every section must create real progress

- Keep everything original, ethical, and compliant

Output the deliverable as a clean, structured guide with:

- Headers

- Bullets

- Steps

- Fill-in fields when useful

- Clear instructions

🎉 THAT'S IT! YOU'RE DONE!

With just:

Prompt #1 → Choose an item → Prompt #2

You can create:

✔ Micro-products

✔ Bonus stacks

✔ Lead magnets

✔ Upsells

✔ Worksheets

✔ Story frameworks

✔ Transformation templates

✔ Emotional marketing assets

✔ Client deliverables

✔ PLR bundles

No thinking.

No overwhelm.

No friction.

Just copy → paste → create.
