

Oto Commissions by Riten

Status: OPEN!

- CV

	BGM + Oremo	BGM	No BGM
Base/Monopitch	\$8.00		
+ 1 Pitch	\$5.00		
+ romaji/hiragana alias*	\$2.00 USD (per pitch)		

*This extra has a slash between both writings since you can decide whether to record your samples in one or another writing. This would mean that basically you can decide to leave the voicebank with the names from the generated WAVs or to add the respective alias from their opposite writing.

❖ TERMS AND CONDITIONS

- Take in consideration that:

- If the voicebank has a pre-oto I can apply a 15% as maximum discount to the total amount. This percentage may vary depending on how complete and clean the oto is. (This won't apply for both spanish 360 and nJokis otos since their reclist already include a pre-oto provided by their creators) **The percentage discount is defined by the next conditions:**
 - **5%** - If the oto aliases are automatically generated either with setparam or moresampler.
 - **10%** - If the oto aliases are automatically generated either with setparam or moresampler, have no repeated aliases and the parameter values are already adjusted to the right tempo.
 - **15%** - If the oto aliases are automatically generated either with setparam or moresampler, have no repeated aliases and the parameter values are already adjusted to the right tempo and all the WAVs are ordered the same as the reclist and not only alphabetically.
- Any set of additional phonemes (vocal fry, exhalations, glottal stops, etc.) won't increase the price of the commission, but it will take me more time, unless you have a pre-oto for those phonemes.
- The addition of FRQ files also won't increase the price (they will be generated through Speedwagon).
- For VCV and CVVC I can accept without any problems that the WAVs are in hiragana or romaji, just make sure that they are signed 16-bits in case you didn't recorded with Oremo.
- I won't accept any voicebank that isn't property of the commissioner as well as incomplete voicebanks and/or with bad quality audios (saturated, unattainable, truncated, etc.).
- I can't make magic; the quality of the voice may depend on how well recorded the syllables are, but not from my configuration, I may give you advice on which resamplers and flags you should use to enhance the quality of the voicebank.
- Once the commission is completed, I won't take responsibility for any modification that causes any error in the voicebank. Nevertheless, if the commissioner wishes to get the voicebank again they will be provided with a new link for its redownload.
- The delivery time may vary depending on how many pitches and the format you ask me to configure.
- My time zone is GMT-6.

- For the payment method:
 - I only accept PayPal.
 - To contact me, you can send me a DM to my Twitter or Discord with all the specifications you desire.
 - Regardless of the price, there will only be a one-time payment and there will be an additional payment of 5% from the total price which is approximately the percentage of the tax fees that Paypal applies to my country. The commissioner may decide if the payment is before or after the commission is finished.
 - Before any transaction, you will need to provide me with the email you use for your paypal account so I can send you a receipt with the requested amount.
 - Once the commission is finished, the download will be through a ZIP file provided via Google Drive, once the file has been downloaded, it will be deleted, so I suggest that you save it in a cloud, external disk drive or USB drive.
