This scientifically-balanced focus pill is the closest thing to inspiration in a bottle

How to set the right conditions for creativity and innovation by
amplifying your focus

The Closest Thing to a real-life cheat code for your brain.

How many times have you sat there thinking about the top 1% of people?

Elon Musk, Jeff Bezos ...

How many of those times have you wondered... How the hell did they do it? We are no different, so why are THEY there but I am here?

Why does it feel like they are... a little different.

It's almost as if, they have an advantage. As if it was EASY...

But what if it was? What if they have tricked ALL of us into thinking it was all hard work that got them there?

What is it that this 1% is paying BILLIONS to hide from you?

...The fact that we, normal people, only have access to 34% of our OWN brains?

Or the fact that this newly leaked supplement has been found in the system of almost all billionaires.

If only people knew... they would KILL to get their hands on this.

Get it while it's legal...

You Deserve More

Success feels so far away.

You work, and work. You don't get anywhere.

It's like chasing the sun. The goal gets further away the more you chase it.

You put EVERYTHING in and get NOTHING out.

How will you let yourself comfortably sleep knowing you are the same person you were one year before? Two years, three years, TWENTY?.

Picture your 60-year-old self, barely able to remember a single proud moment despite having 40 years of work under your belt.

14,000 days, 300,000 hours. All blended into one chunk of your life.

How does it feel? knowing that there are people out there getting work done in 15 minutes that would take you 3-4 hours?

What if I told you you absolutely deserve to be where you are?

The secrets are out there. And the best part...

It is being taught to ANYONE.

Learn what you are doing wrong EVERY DAY that is keeping you where you are and the simplest, most unexpected tweaks that are dragging you down right in front of your eyes.

That's right, YOU are holding YOU back.

No matter how much you try you can't chase down the sun if you aren't even running in the right direction.

I will show you:

How I went from working 40 hours a week to 4 in the last year

This is the biggest favour any man could do for himself right now.

My only wish is that I discovered this back when I was in my 20s.

As I sit here writing this on my balcony,

I still often picture myself in an alternate reality if I hadn't read Kyle's book 12 months ago...

still at my old 9-5, desperately trying side hustle after side hustle but with no success.

If only I knew that I was always destined to fail.

As a man who was there just 10 months ago,

Now bringing in just over \$40k in the last 30 days, I KNOW that I would be still there for the next 30 YEARS if I had ignored Kyle's advice.

I was where you are now when I read the first book.

Kyle's new release, *Take Their Money*, revisits everything from the first book, PLUS everything he has learned since.

You can grab one here.
