

The Act

The Space Act but less bs (bureaucratic stuff)

Section 1: Names and Astronauts

1. The spaceship we send to Alpha Centauri shall be named by public referendum
 - a. The Speaker shall post a reddit thread after the passing of this law by the ministry which shall be open for a 48 hour period in order to gather name suggestions after which all name suggestions from said thread shall be voted on in a public referendum held by the electioneers that shall be open for at least 48 hours
2. On the same thread as the name suggestions for the spaceship, any citizen of Arabia may enter to become one of the 3 astronauts to be on the spaceship for its journey to Alpha Centauri
 - a. The electioneers shall assign each citizen who enters a number and select 3 random numbers randomly to determine who gets to be the astronauts.

Section 2: Spaceship Regulations and Funding

3. The Ministry is encouraged to fund the creation of Spaceship Factories
 - a. The governors may by majority vote of every governor, make a binding request for the purchase of one Spaceship Factory in an eligible city of their choosing one time.
 - i. This may not be done if it would result in the treasury having under 200 gold
 1. If this request is made while the ministry does not have enough gold on hand to make the purchase and/or be compliant with this rule, the ministry shall delay the purchase until they have enough to buy the factory and not be violating this sub-section

4. Spaceship Parts units may not be deleted. No action that results in the destruction or deletion of Spaceship Parts units may be taken.
 - a. Once spaceship parts are constructed, they are to be added to the spaceship in Mecca any may not leave Arabian Territory
5. Governors are encouraged to construct spaceship parts and use any Great Engineers they obtain on spaceship parts.

Section 3: World Congress and Tech

6. The Ministry shall, at the next opportunity, propose a vote to the World Congress on the International Space Station project.
 - a. The Ministry is encouraged to send gold gifts to city states to gather their votes for the project.
 - b. Governors are encouraged to assign at least one of their cities to production of the International Space Station.
7. The Ministry is encouraged to pursue technologies that allow us to construct spaceship parts
 - a. The Ministry is encouraged to use any Great Scientists on techs that will allow us to construct spaceship parts.
