

GIFT 1: HotJar 'Conversion Optimizer' Enterprise Cloud App

The world's most popular conversion booster app that is proven to convert more of your visitors into sales!

See how your visitors are really using your website with eye-tracking heatmaps, surveys, polls, recordings, and machine learning analytics to convert more...

Never wonder why your website conversions are low as HotJar will provide you detailed solutions to all your conversion issues so you can make more profits out of the SAME amount of traffic you are already having!

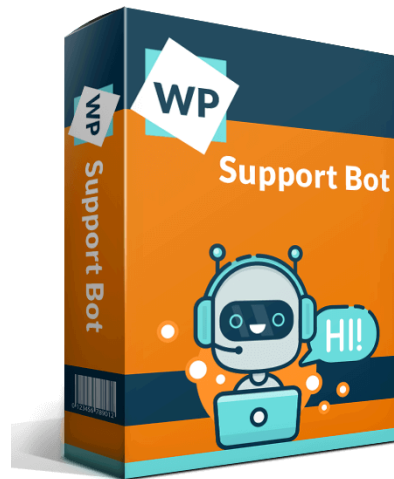

GIFT 2: Miscellaneous Stock Photos

Being an online marketer, you can't deny the fact that images are one of the best ways to share information both online and offline. This is the only reason marketers hire graphic designers to get attractive images and graphics as you can't get images directly from the internet because of copyright issues.

But don't worry.! Here comes the solution. With this package, you can grab a bundle of more miscellaneous stock photos which you can use for your own projects as well as resell it to your current audiences.

GIFT 3: WP Support Bot

It's a well-known fact that live-chat brings a 20%+ increase in conversion rates, and boosts sales and profits hands down. And it's no surprise that top business houses are using it to intensify their benefits.

So, this exclusive WP plugin creates a live chat widget and allows site visitors to directly interact with the administrator in real-time or offline mode. With this plugin, visitors can also send short messages to you on your website and get prompt replies of their queries.

GIFT 4: Fancy Box Poppers

Display your stunning offers and promos, with the attention capturing pop-up boxes. They are super-convenient to use and can be embedded on a blog, website or any webpage.

Create urgency for your offers and make them appear truly captivating so that your site visitors cannot refuse to bypass them.
