

Hays CISD uses SMARTtag technology to keep parents aware of the location of their child's bus while their child is on board.

Here are helpful SMARTtag resources:

General info about SMARTtag:

Bus Discipline Process

1st offense- Warning: Transportation contacts parents

2nd offense- Warning: Transportation contacts parents

3rd offense- Bus Referral to Campus Administrator

- School contacts parent to initiate bus contract
- Subsequent referrals could result in suspension of bus privileges

Major Offenses (drugs, assaults, fights, sexual misconduct, etc.) will bypass the warnings and a bus referral will be entered. Transportation will contact a parent about the referral and school administrator will follow up with a phone call.

Student ID Offenses will bypass the warning systems and be sent straight to the campus. Not wearing your ID is considered a safety matter and will be handled by the campus. ID offenses will not be sent to the campus until we have verification that all students have received the student ID's. However, students should still be wearing the ID they were issued last year if they were a Hays CISD student.

Late Bus Information

Any student that needs to stay after school will be provided a late bus. This bus will pick students up at SMS and will take them to a "hub" location. The times will differ depending on traffic. Please email transportation at Transportation@hayscisd.net with questions or concerns.
