

## Endorsed Delegate Assessment Criteria

The **seventh step** in becoming an endorsed delegate is completing the endorsed delegate assessment criteria and uploading it into a publicly visible google doc.

You may copy the following template into a separate google doc, complete the self assessment, and provide the necessary details that justify your self-assessment score for each category.

---

The Endorsed Delegate Assessment Criteria is self-reported and is intended to provide \$DYDX holders with deeper information about an Endorsed Delegate.

Delegate	Alignment	Experience	Engagement	Diversity	Conflicts	Total
xiaolou	1/2	1/2	1/2	2/2	2/2	7/10

### Detailed Assessment:

#### 1. Alignment

- 2 – High-level commitment to the dYdX protocol and governance. Delegate will benefit if the dYdX protocol grows.
- 1 – Some commitment to the dYdX protocol and governance. Delegate may indirectly benefit if the dYdX protocol grows.
- 0 – No commitment to the dYdX protocol and governance.

Details:

#### 2. Experience

- 2 – Delegate has a professional background in crypto governance, smart contract development, code auditing, financial risk modeling, DeFi protocols, or similar.
- 1 – Delegate has a personal interest in the criteria listed above.
- 0 – Delegate has an unrelated background.

Details:

#### 3. Engagement

- 2 – Delegate has a strong history of participating in forums, voting and/or participating with other relevant communities.
- 1 – Delegate has a limited history of community engagement.

- 0 – Delegate has no history of community engagement.

Details:

#### 4. Diversity of Perspective

- 2 – Delegate has a unique perspective compared to other delegates.
- 1 – Delegate represents a perspective that is underrepresented in governance.
- 0 – Delegate represents a perspective that is widely represented in governance.

Details:

#### 5. Conflicts

- 2 - Delegate has no existing conflicts with the dYdX protocol, and would not benefit in any way from the dYdX protocol's failure.
- 1 - Delegate has no outright conflicts with the dYdX protocol, but may benefit in some unusual circumstances if the dYdX protocol fails.
- 0 - Delegate has an outright conflict with the dYdX protocol, or may benefit in typical circumstances if the protocol fails.

Details:

I confirm that the information above is accurate and up to date.
