

Uploading a submission on behalf of a student

Guide on how to upload a submission to TurnItIn on behalf of a student.

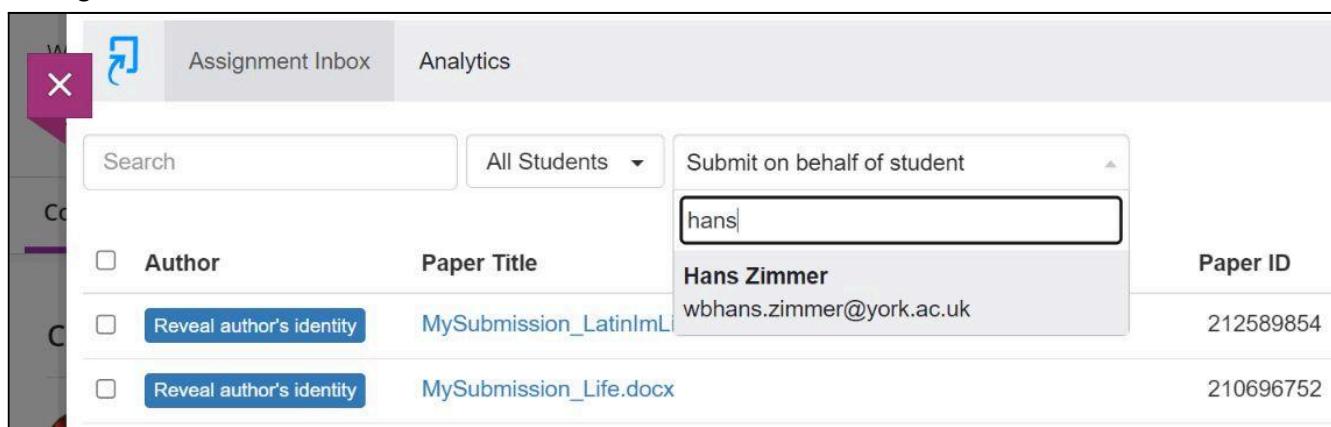

Section 1 Why might I need to upload a submission on behalf of a student?

- Generally speaking, the need to submit a file on behalf of a student shouldn't arise; it is however possible that you may want/need to do this in the event that you receive a submission from a student by some other means, such as email for example.
- Note that all departments should make students aware of an 'emergency' email address for assessment submissions; this to be used (only) in the event of a technical problem preventing submission via the VLE on time.

Section 2 How to submit a file on behalf of a student

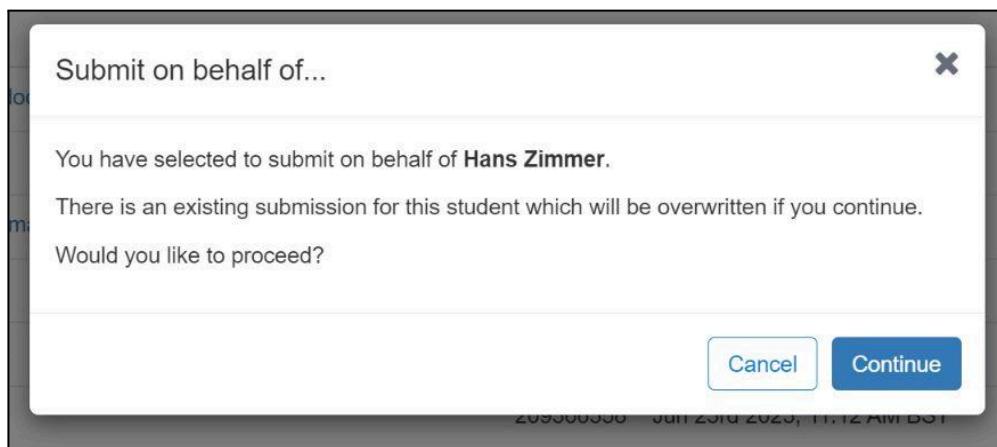

To submit a file on behalf of a student:

1. Access the VLE site containing the TurnItIn submission point you need to submit on behalf of a student to
2. Locate the submission point and click on its title to launch it
3. When the **Assignment Inbox** is displayed click on the **Submit on behalf of student** drop-down at the top of the **Assignment Inbox**. Type a part of the name (or a part of their email address) of the student you need to submit on behalf of into the search field at the top of the drop-down. This will filter the list to show the student you are looking for.

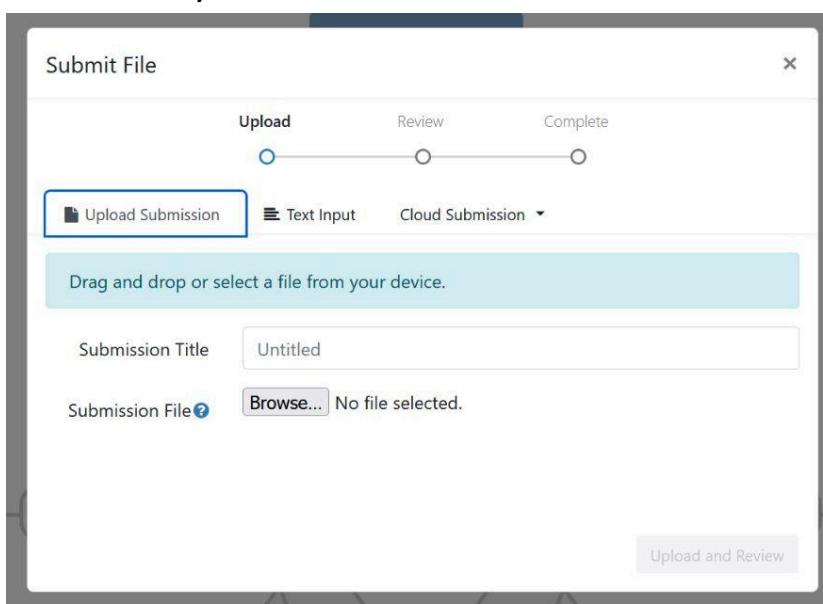

The screenshot shows the TurnItIn Assignment Inbox interface. At the top, there are tabs for 'Assignment Inbox' and 'Analytics'. Below the tabs, there is a search bar, a dropdown for 'All Students', and a dropdown for 'Submit on behalf of student'. The 'Submit on behalf of student' dropdown is open, showing a search field with 'hans' typed in. Below the search field, a list of students is displayed: 'Hans Zimmer' with the email 'wbhans.zimmer@york.ac.uk' and Paper ID '212589854', and 'MySubmission_LatinImperial.docx' with Paper ID '210696752'. There are checkboxes for 'Author' and 'Reveal author's identity' next to each student entry.

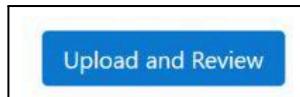

4. Click on the student's name to initiate the same file upload process that a student uses when making their own submission
5. If there is no existing submission for the student, click the **Confirm** button to proceed
6. If there is already a submission for a student then you will be warned of this and will need to click the **Continue** button to proceed.

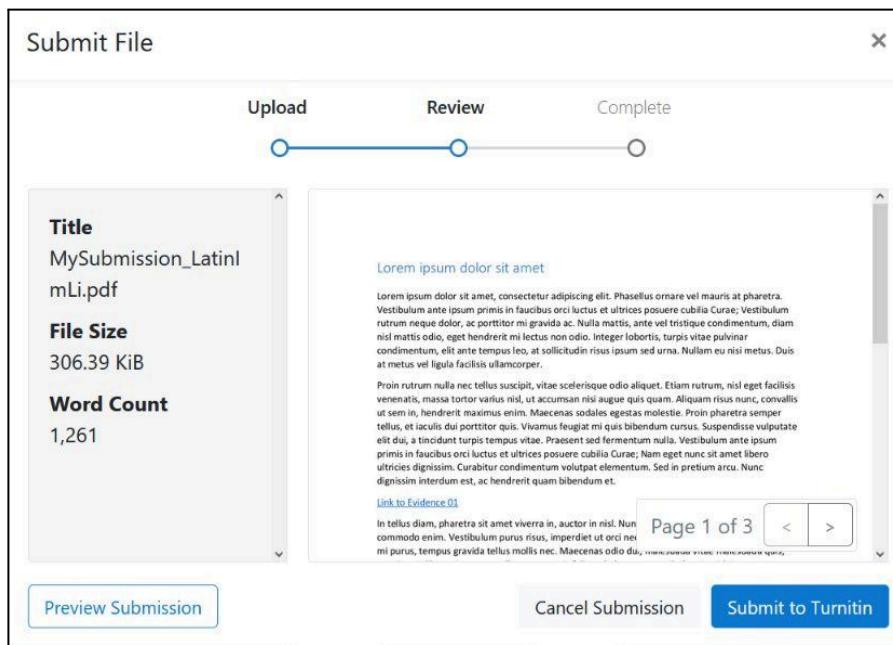

7. Note that if there is already a submission you may wish to abort the submission, download the existing file (for temporary safe keeping) and then submit the new file on behalf of the student. This could prevent later problems if the student has sent you the wrong file or for some reason wants to revert back to their previous submission but after their deadline has passed for example. See [Section 3](#) for how to download a submission.
8. At the **Submit File** panel drag and drop the file the student has provided to you onto the panel or alternatively click the **Browse/Choose File** button and use the standard file browser to locate the file.

9. Click the **Upload and Review** button.

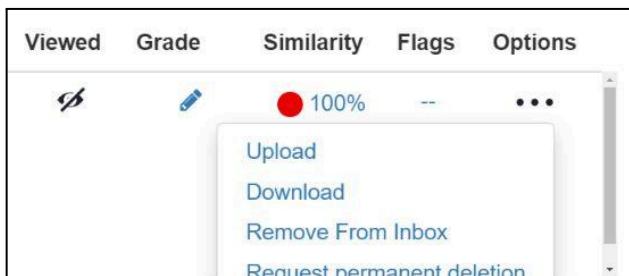

10. Once the file has uploaded you will see a preview of the file (if it is of a type that can be previewed). Click the **Submit to TurnItIn** button to complete the process.

11. A Submission Complete will be displayed. Click the **X** at the top right of the panel to dismiss it or, after a short delay, the panel will automatically close.

Section 3 Downloading a current submission

1. Note/Log the original date and time of receipt for the submission you are replacing
2. Click the three-dot menu at the far right of the listed submission's row and select **Download** from the drop-down menu that appears. When prompted, save the existing submission to a safe location.
