

Klondike Birthday Spinners

Klondike celebrates its birthday on 17th January. We received the first spinner in January 2015, this was Kondike’s 1st birthday.

The first 10 spinners had to be built then upgraded each year.

NEW SPINNERS NO LONGER NEED BUILDING, Nor will they have to be upgraded each year.

Each upcoming birthday spinner will boast a distinctive and unique design that does not require building or upgrading.

The first 10 spinners all had #1 on them when received. As they were upgraded the numbers increased. This means that the very first spinner, from 2015, after being upgraded each year, is now the spinner with 10 on it.

2015 Gold Year 1st Birthday spinner, over the years it has been upgraded and now has the number 10 on it.	
2016 Crystal Year 2nd Birthday spinner, over the years it has been upgraded and now has the number 9 on it.	
2017 Diamond Year 3rd Birthday spinner, over the years it has been upgraded and now has the number 8 on it.	
2018 Emerald Year 4th Birthday spinner, over the years it has been upgraded and now has the number 7 on it.

It now becomes confusing.	

The Vizer portal was released and the spinners diverged for a couple of years. If you continued playing on Facebook then 2023 & 24 & 25 are as follows:

Vizer Portal If you moved to the portal then your spinners will be as follows OR you may have just one or two of them depending on when you began play on the portal If you began play before January 17th 2023 you will not have a spinner with #2 on it! Portal spinners are as follows:	
2023 Gold Year 1st portal spinner. Gold Year Spinner, it has a 1 on it and yes, it is the same name as the very first spinner released in 2015	
2024 Annual Roulette 2nd portal spinner. Unique spinner, does not need building and it won't be upgraded.	
2025 Annual Roulette 3rd portal spinner. Unique spinner, does not need building and it won't be upgraded.
