Curriculum & Instruction Update	We have implemented PBIS which is a school wide plan to help us all have the same behavior expectations. Posters are displayed, students have the chance to be "caught" being their best SA Spurs. This does not replace individual classroom expectations but helps support it by applying expectations in the office, cafeteria, and hallways. We continue to focus on reading, math, and writing. We are implementing and using many more anchor charts, improving instruction in small groups and making better decisions about what should be taught in a whole group versus a small group. We are beginning to differentiate based on student needs and intervening based on what daily instruction and our data is showing us.
