

Group #: _____

In-class activity #2

Contemp SE Challenges

In your group, **compare and contrast the budgets you came up with** for the homework I just passed back. Continue to assume we're thinking about a 22-year-old single-person household working 40 hours per week at California's minimum wage. As you discuss your budgets, list different items you've identified and try to categorize them based on whether they'd be part of a minimum/poor standard of living or a higher one. After you're done discussing in a small group, we'll come together as class to discuss what you'd need to live at or above a poverty level.

← *Definitely needed for a minimum living standard*

Nice but not necessary →
