

Using EduCreations

1. Download app and create account
2. Create your first video
 - a. Click “New Lesson” in the top left
 - b. Hit the red record button.

- c. You are now recording your lesson! Draw an image with your finger, type text, or add a photo. While you draw, the app is recording your voice.
- d. Click done, and select “Save Lesson.” (or start over if you want to record)

- e. You will be asked to give the lesson a title, make it public or private, and assign it a subject.
- f. Once it is saved it will appear in a list with your other created lessons.
- g. To share your EduCreations, click the thumbnail image of the lesson you want to share. Then select your preferred sharing option for the top right corner. **To post your educreations lesson in Moodle,** select the link option (gray, far right icon). Then add to Moodle using the “Add a resource” - URL option.
