Subject: A career ender

That was it,

I couldn't play ever again after my injury.

All my hard work for nothing.

Now I have to sit in my room in my bed everyday for 4 months.

My parents were heartbroken.

They love watching me play.

They spent all their savings on me to play football.

Where do I even go from here?

My football career is ruined.

Now what, a 9 to 5 job?

I cried every night.

Then a miracle came,

My dad founded a place where they could afford for me to fix my injuries.

it took 4 months of recovery and with the latest equipment,

I can finally play football again!

My parent's smiles lit up the whole field watching me play.
