To Whom It May Concern:

I have had the pleasure of having Hailey Yommer as a Student Intern in my art classroom for the Spring Semester, 2022 at Mountain Ridge High School. Ms. Yommer is an outstanding teaching candidate, who strives for the highest achievement in any endeavor she undertakes.

As my Student Intern, Ms. Yommer was responsible for planning art lessons for art classes of all high school levels. She did an outstanding job in planning these lessons. She made lessons both fun and relevant to capture students' attention and she addressed the different learning styles of her students. Her expectations for all students were consistently high and she always encouraged the students to do their best. While in her internship with me, Ms. Yommer was also responsible for classroom management. She presented herself in a firm yet approachable way to the students. This helped her develop an excellent rapport with the students and manage the art classroom very well.

Ms. Yommer is very self-motivated, creative, and professional. Also, during her internship with me at Mountain Ridge High School, she shared her extensive knowledge of technology and graphics to help me feel more comfortable and confident using different programs to deliver instruction using technology. Ms. Yommer has a love and enthusiasm for art and education that is infectious, and the students respond to this. She would be an asset to your school.

I hold Ms. Yommer in such high esteem, I whole-heartedly recommend her as an ideal teaching candidate for any art teaching position she pursues.

Respectfully submitted,

Kathryn G. Anderson
Art Teacher, Mountain Ridge High School
